

DEFENCELL™ vs SANDBAGS

FORCE PROTECTION SYSTEM

Time to Fill a Defencell Product vs its Equivalent Volume of Sandbags

Defencell Product
(number of sandbags)

Defencell can be filled manually or with standard construction equipment in minutes.

Sandbags are expressed as fill volumes only. Sandbag time is estimated at 12 seconds per sandbag and is based on using an automated sandbag filling machine in close proximity to the wall. Sandbag fill time information: As determined from <http://bucketbagger.com/Sandbag> fill volume information: As retrieved from <http://www.ag.ndsu.edu/pubs/ageng/safety/ae626w.htm>. NDSU. (2010).
